Red Condor Email Security Appliance Receives Network Products Guide Reader Trust Award for Best in Anti-Spam Solution

Message Assurance Gateway Appliance a 2010 Best Products and Services Winner

Rohnert Park, Calif. – June 22, 2010 – Red Condor, a leading provider of fully [managed email security solutions](#), today announced that the editors of Network Products Guide have awarded the Red Condor Message Assurance Gateway (MAG) email security appliance the 2010 Best Products and Services Award. The Network Products Guide is the industry’s leading information technology research and advisory guide. The guide’s annual award honors products and services that meet the rapidly changing needs and interests of the end-users of technology worldwide. This year’s Best Products and Services were nominated by users from all over the world.

Red Condor’s fully managed MAG network appliances provide comprehensive defenses against spam, viruses and other email threats while strengthening the confidentiality and trust of email communications. The appliances feature multiple layers of defenses and a suite of proprietary technologies. Features include advanced phishing filtering techniques, Transport Layer Security Encryption and fault-tolerant Vx Technology, which integrates a local network appliance with a hosted service for fail-safe redundant operation. Red Condor is the only email security provider with a managed service and Vx technology. The company’s family of appliances is compatible with all email servers, systems and client software.

“Increased end-user awareness and ongoing advances in technology are helping to shape better products and services,” said Rake Narang, editor-in-chief, Network Products Guide. “Red Condor’s MAG appliance is helping raise the bar for email security by increasing the standard for filtering performance and improving email security management.”

The company’s Zero Minute Defense™ System constantly monitors the Internet for sudden changes in spammers’ tactics, allowing the company to quickly analyze and adapt to new threats. In the past year, Red Condor blocked and issued warnings about phishing, spear phishing and blended threat campaigns spoofing Adobe, Amazon, Apple, Craigslist, eBay, Facebook and Twitter, among other brands.

“We’re honored that our MAG appliance has earned Network Products Guide Reader Trust,” said Dr. Thomas Steding, CEO of Red Condor. “There are a number of choices in email security

devices and services on the market today. This award is a true compliment to the stellar team behind our technology.”

About the Network Products Guide Awards

As industry’s leading technology research and advisory guide, Network Products Guide from Silicon Valley plays a vital role in keeping decision makers and end-users informed of the choices they can make in all areas of information technology. You will discover a wealth of information and tools in this guide including the best products and services, roadmaps, industry directions, technology advancements and independent product evaluations that facilitate in making the most pertinent technology decisions impacting business and personal goals.
